# WHO WE ARE

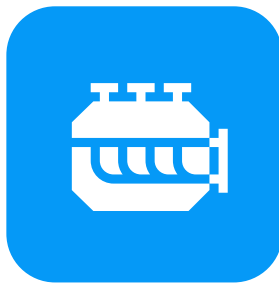

Brutes Air serves a vital role in major industries such as the mining, engineering, medical, and manufacturing industries.

We are world-class providers of sustainable compressed air solutions, gas installations and power. Our customer and service orientated teams and branches, are strategically placed to minimize downtime and improve response.

Because production is complicated enough, customer relations and satisfaction is a top priority at Brutes Air. We strive to maintain and improve our excellent standard through providing world-class products, service and support. When quality, quantity and design is of utmost importance, you should thus place your trust in a quality orientated service provider – Brutes Air Solutions.
